<1> Contents on Install Disk / Install Image

- **[BreathWav] folder**
  VOCALOID6 can insert a breath automatically, but WAV files for entering breath manually are also included in [BreathWav] folder.
  These data can be used on VOCALOID6 or other DAWs. These files are the same as VOCALOID4 Megpoid contained.

- **[VoiceWav] folder**
  Many voice materials which contain shouts, countdown and more are included in [VoiceWav] folder.
  These data can be used on VOCALOID6 or other DAWs. These files are the same as VOCALOID4 Megpoid contained.

- **[illust] folder**
  Illustrations of Otomachi Una are contained in [illust] folder. File types are JPEG and PNG.

<2> Cautions Before Using: Install, User Registration and Others
